

Hi-fi news SHOW 2006
RENAISSANCE HOTEL, HEATHROW 22, 23, 24 SEPTEMBER WWW.HIFINEWSSHOW.COM

New show, new magazine, new era...

We've assembled a roster of industry legends for presentations in the York Theatre, a rare opportunity for trade and consumers to enjoy face-time with their audio heroes. Nobody holds an audience like the inimitable Ivor Tiefenbrun of Linn, and we're honoured to be hosting presentations by two notables from the USA: wizard speaker designer Dave Wilson of Wilson Audio and analogue champion Michael Fremer, Senior Contributing Editor of *Stereophile*.

This year's show features a plethora of brand new product launches together with exclusive demos of the world's newest and finest hi-fi equipment.

Hi-Fi News is owned by IPC Media — the UK's leading consumer magazine publisher, with a large portfolio of brands, selling over 350 million copies each year. Our magazines reach over 70% of UK women and 50% of UK men — that's over 28 million UK adults. IPC is owned by Time Inc., the publishing division of Time Warner, the world's largest media organisation. And our partnerships and licensing arrangements make us a truly international business.

Brands exhibiting include...
